III. Analysis of Impact

FDA has examined the impacts of the final rule under Executive Order 12866, and the Regulatory Flexibility Act (5 U.S.C. 601–612) (as amended by subtitle D of the Small Business Reform Act of 1995 (Public Law 104–4)). Executive Order 12866 directs agencies to assess all costs and benefits of available approaches that maximize net benefits (including potential economic, environmental, public health and safety and other advantages distributive impacts and equity). The agency believes that this final rule is consistent with the regulatory philosophy and principles identified in the Executive Order. The final rule removes the medical device regulation requiring a national cardiac pacemaker registry from part 805. The agency certifies, under the Regulatory Flexibility Act, 5 U.S.C. 605(b), that this final rule will not have a significant economic impact on a substantial number of small entities. In addition, this final rule will not impose expenditures of \$100 million or more on either the private sector or State, local, and tribal governments in the aggregate and, therefore, a written statement under section 202(a) of the Unfunded Mandates Reform Act of 1995 is not required.

IV. Paperwork Reduction Act of 1995

FDA concludes that this final rule contains no collections of information. Therefore, clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1995 is not required (Public Law 104–13).

HUD will soon be publishing additional information and direction to PHAs on their plan submissions.
